**A career in
Horticulture
awaits...**

ABOUT US

Johnsons of Whixley is a three-generation family business that has been supplying the nation with millions of quality plants for 100 years.

We are one of the UK's leading commercial nurseries, and are responsible for supplying the nation with 5-6 million plants per year.

We operate from five sites located between Harrogate and York, just off junction 47 of the A1 with train links every half an hour.

Are you interested in greening the nation? Join a business that reduces the nation's carbon footprint with every sale. Continue reading about how a career in Horticulture could be for you.

WHERE CAN A CAREER IN HORTICULTURE TAKE YOU?

A career in Horticulture at Johnsons could have you working outside on our nursery, in a customer-facing role on our plant centre or it could even have you in an office-based role; below are some examples of the careers available at Johnsons:

Nursery Worker

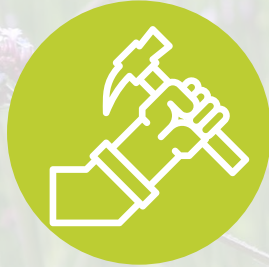

Production

Transport & Logistics

Sales

Maintenance

Reception

Other roles at Johnsons include: Accounts, Marketing, Admin and IT.

WHY JOHNSONS?

We are one of the UK's leading commercial nurseries and genuinely believe we have one of the best working environments with stunning views over the Vale of York. Outdoor workers have the ability to do over 10,000 steps per day as part of everyday duties.

We currently employ a workforce of 120, rising to 150 seasonally across our three sectors: Commercial, Retail, and our onsite cash & carry. We are proud of our low staff turnover and ability to identify, recruit and develop staff members who go on to give 20, 30 or even more than 40 years' service.

" I started working at Johnsons of Whixley in May 2020 through an agency as a nursery worker. I now work at the Cash and Carry unit as a Sales Assistant, collating and processing orders. It's a very fun and friendly environment. No two days are ever the same! "

Isaac Onions

"JOW has supported my career by providing access to training courses and arranging meetings with other growers in the UK and in Europe. This has helped me have a greater understanding of the ways a nursery works and how to manage people."

Claire Horner
